

Factsheet: Xplain 25S I *The Sims 4 Game Pack*

Team

Marietta Oravainen: App Design & Development (Semester 6)

Katherine Sutandar: App Design & Development (Semester 6)

Jessica Steinhilber: Medienwirtschaft (Semester 8)

Jessica Yours: Medienwirtschaft (Semester 5)

Motivation

Many people lack knowledge about Smart Charging and how to charge EVs efficiently.

With our Sims 4 Game Pack, users can experience smart charging in a playful way: Your Sim can drive EVs, install wall boxes, and much more to learn about it.

As part of a design project, we developed a mockup that introduces sustainable mobility in an interactive way.
