

A traditional East Asian building with a dark, multi-tiered tiled roof. A large, glowing sign on the front of the building displays the text "DevDojo" in a bold, sans-serif font. The building's facade is made of dark wood and features large windows with multiple panes. Several people, dressed in traditional East Asian clothing, are gathered outside the building. Some are sitting on the steps, while others are standing near the entrance. The scene is set against a backdrop of a bright, cloudy sky.

DevDojo

DevDojo2

Beschreibung:

- Bereitstellung von Programmieraufgaben
- Codevalidierung der Eingabe durch Tests
- Einfache Erweiterung weiterer Programmiersprachen
- Login via HdM Account
- Gehostet auf Hochschulserver, erreichbar über das Web

The image displays three screenshots of the DevDojo2 web application, which is a platform for solving programming tasks. The interface is dark-themed with light-colored text and buttons.

- Top Screenshot:** Shows the login screen. It features a "Hinweis zur Anmeldung" (Information for login) box with text about using HOM credentials (Email or KIWI) and a note that the application uses central HOM LDAP. Below this are fields for "Username" and "Passwort".
- Middle Screenshot:** Shows the main dashboard. The left sidebar has "Übersicht", "Dashboard", "Aufgaben", "Statistik", "Bestenliste", and "Einstellungen". The main area shows a list of tasks under "Aufgaben". One task is highlighted: "1 Summe berechnen" (Calculate sum), which requires writing a Java method to sum integers. The "Unit Tests" section shows three test cases: [[1,2,3,4]] → 10 (Value Expected), [[5]] → 5 (Value Expected), and [[0]] → 0 (Value Expected). All tests are marked as "Nicht ausgeführt" (Not run).
- Bottom Screenshot:** Shows a specific task detail page for "1 Summe berechnen". It includes the task description, Java code input field with placeholder code, and the "Unit Tests" section with the same three test cases and their status.
