# Gustav's Studyhub

Problem Statement

It's difficult to organize and plan your everyday university life, lectures, appointments, and relevant information in a structured way. And when you try, all your plans are scattered across different apps and websites. Gustav's StudyHub offers the solution: manage your everyday university life in one place.

Implementation

Gustav's StudyHub is an app that makes student life at HdM much easier. With practical features such as an ECTS calculator, a calendar, and a course overview, the app brings together all the important tools.
